## Testimonials

★★★★★ I love myself and this book!

When I first saw this book, I HAD to get it for my 3yo daughter! This precious story shows Little Nikki's journey to loving herself again after school friends leave her with doubts about her self-worth. My daughter was totally engaged in the story, loved the message, the illustrations and the main character - who looks like her and comes from a small island too! It has since had her, and her brother, chanting "I love myself"! This is definitely a book that needs to be in every child's library for those times that they need a little reminder to love themselves.

★★★★★ Wonderful book about self love

This is a well-written and beautifully illustrated book that teaches children to love themselves and shows them a way to build confidence in themselves. Nikki is excited to go to school and make friends. And soon she is able to make friends to play with. But, over time, Nikki changes - she's taller and more mature looking than her friends and they start to make fun of her. This makes Nikki sad. Then, she figures out a way to change how she feels about herself and gain her confidence and self-esteem back.

★★★★★ Great Read for SEL

This is great read for self love! I read this to my second graders and loved how it talked about self worth! This is important for them at this age to say positive affirmations to one another. This ties in great with SEL! Great read and you definitely need to add this to your classroom!

## Book Description

This story was written to inspire young children to love the skin they're in. Ebony and her crown highlight the perspective of a curious toddler having a big afro and is uncertain about the nature of her hair. Ebony then turns to her mother for answers. In this mother daughter duo, Ebony's mother helps her to understand that her hair is meant to be big and wild, and she should wear it with pride. This book is a reminder that social conditioning starts when you are young and follows you into your adult years. When children are able to see themselves represented as the main characters in books and television shows, the experience can boost self-esteem and self-worth. Lack of representation can be harmful to a child and can impact their self-image and how they interact with others. A positive self-image can boost our mental, social, and emotional well-being.

## Testimonials

★★★★★ Hair Representation Matters!

My daughters and I really enjoyed this book. My middle daughter especially enjoyed the book because she could identify the most with the main character, Ebony. Often times, she asks why her hair isn't like her sisters or why does it take longer to do her hair. Ebony and her Crown helped to show her that her big hair is beautiful and no matter the texture it is her crown. I definitely recommend this book, great read.

★★★★★ Touching

To love the skin you're in, is beautiful but can be challenging. As especially as a young girl you can be misguided by so many outside factors that can make you feel less than. Great story!

★★★★★ Hair Representation Matters!

Ebony and her Crown is written by Nicole Marshall and illustrated by Sekar Azahra. It is a poem written for children to explain the importance of a woman's hair in African American culture. This book is important not just for African American children, but for children of other ethnic groups because we need to start normalizing other cultures from an early age. Very enjoyable and educational!
